

### 3 OSH mentorship & trainings

We support workplaces with over 20 employees to fulfil the statutory requirements of The Occupational Safety and Health Act, 2007 (OSHA) through:

- i) Occupational Safety & Health Training
- ii) Occupational First Aid training
- iii) Fire Safety training, and
- iv) Infection Prevention & Control (IPC) training

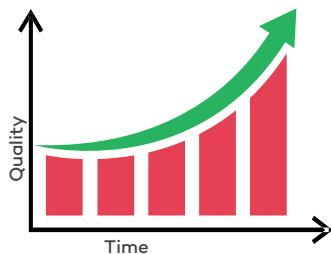

### 4 QMS software

The software has easy to navigate modules such as :

### 5 CQI programmes

We provide continuous Quality Improvement programmes for hospitals and laboratories interested in quality advancement without intention of accreditation or certification.

### 6 Instruments Calibration

Our verification protocols cover key parameters such as temperature, volume, time, and speed, guaranteeing the highest standards of quality.

- » Volume (Pipettes)
- » Temperature (Thermometers, Fridges, Freezers, Water baths, Incubators, Autoclaves, etc)
- » Time (Stop watches, timers, etc)
- » Weight (Weighing balances, etc)
- » Speed (Centrifuges, etc)
- » Air flow velocity (Bio safety cabinets, etc)

### 7 Laboratory Business Development Support

We provide solutions for laboratory profitability and sustainability. Such as:

- » Promoting effective utilization of lab tests among clinicians.
- » Efficiency in reagents utilization.
- » Sustainable IQC/ EQA programs.
- » Efficiency in personnel management.
- » Lab marketing programs.

### 8 Hospital & Laboratory supplies

We provide a wide range of materials used in hospitals and laboratories such as gloves, needles, syringes, equipments and reagents.
